Apple Design Award

Best Mac OS X User Experience  
2006 Winner

iSale

you sell@eBay

from  
**\$39.95**

iSale, the ultimate eBay auctioning solution for Mac, and two-time Apple Design Award winner, sports a host of new features and functions to perfectly manage your sales on and off eBay.

### Distinguish yourself

iSale now offers more than 220 visually stunning template layouts to fit your needs. And the all new template chooser can help you pick the ideal template for your auction in no time.

### Auction Picture Management

Add images to your auction directly from your iPhoto library or take new ones with your iSight! You can then crop, scale, and swap them using iSale's built-in picture management tools.

### Free Image Hosting

iSale can upload your auction images to your free Picasa Web Albums or your Macbay account. Alternatively, you can also use your .Mac account or FTP server.

Whichever service you choose, picture hosting fees are history!

### Print your Auctions

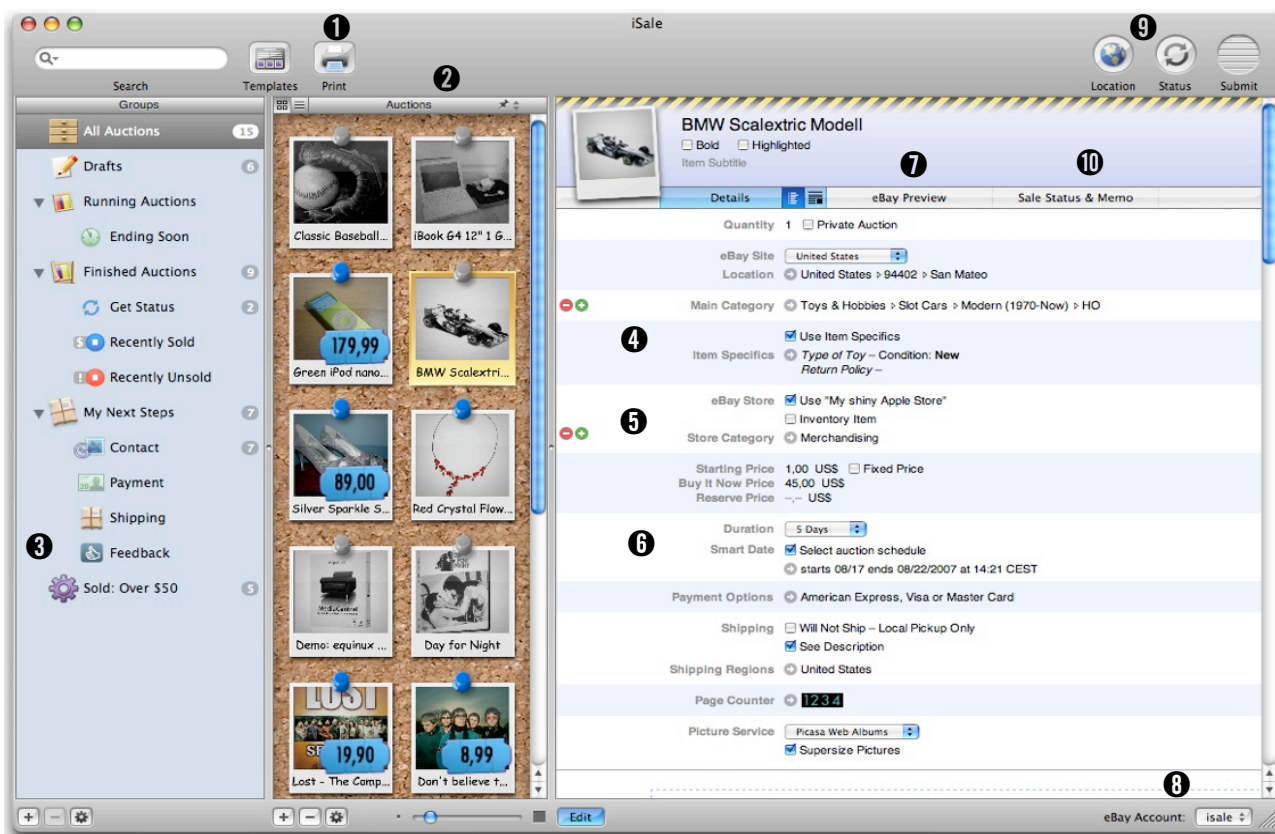

iSale offers several layouts for printing auctions, lists of auctions, and labels – all of which are ideally suited to keep track of your sold items.

### Predefine your Content

Stay a step ahead of yourself by defining boilerplate texts for your auctions. This lets you personalize and standardize the details in every auction you create. Don't enter the same information over and over – create boilerplates.

## System Requirements

- Mac OS X 10.4 or higher
- PowerPC G4/G5 or Intel Mac
- 32 MB of video memory or more
- Internet connection

## 1 Printing

Depending on your needs, select different print layouts for printing auctions, lists of auctions, and labels - all of which are ideally suited to keep track of your sold items.

## 2 Pinboard Styles and Price Badges

8 different pinboard styles are at your disposal and let you view the status of all your auctions at a glance. The price badge states the most recent or final bid of running and completed auctions.

## 3 Smart Groups

Create your own auction groups based on your user-defined parameters to keep an overview of your auctions.

## 4 Item Specifics

Simply accelerate your potential buyers' searching with Item Specifics.

## 5 eBay Store

Use your eBay store to attract more customers and benefit from new business channels.

## 6 Smart Dates

Select the exact day of the week you want your auction to end.

## 7 eBay Preview

View how your auctions will look before submitting them to eBay.

## 8 More than one eBay Account

Use more than one account and keep an overview of all of them. You don't even need to switch accounts to update the status of all accounts' auctions.

## 9 Google Maps

View your buyers' geographic location.

## 10 Price and Buyer Details
